Tumse shaadi karna chahti hoon," she says without batting an eye. He infuses emotions with ample fun Salman elements that will get his diehard fans to whistle. What also stands out in Ali's writing is how he places Sunil Grover's character as Vilayati, Bharat's best friend and confidante. He takes it upon himself as the eldest son of the house to look after his mother and siblings, hoping their family would reunite some day. In times of the 'hookup culture' being glorified in movies and web shows, his films with old school values often aim to get the families together and that stands out. "I do and say what I think is right," she adds and doesn't mind teasing Salman, "Tum thodey self-obsessed nahi ho?" She was impressive even in Zero and Bharat is Katrina's best acting part till date. Sonali Kulkarni and Jackie Shroff are terrific as always. She proposes marriage without fearing rejection. She is equal, even superior to her man and Ali Abbas Zafar makes no bones about it. This eventually makes the movie an exhausting, scattered watch despite the entertainment, humour and nobility it propagates. Separated from his father and sister during the Indo-Pak partition in 1947 as a child, Bharat decides to dedicate his entire life to keeping the promise he'd made to his missing father. He in fact makes it his life goal to put his family before him. While he manages to keep you hooked despite his complex source material and misplaced songs, Bharat has too many things happening at once and too many time leaps. Was this review helpful? A little boy who is forced to be responsible early on, grows up with no regret of a non-existent childhood. Our best friends are our soulmates, constant companions and it reflects here beautifully. Grover does complete justice to his well-written role and deserves more such significant parts. Ali on the contrary, plays a balancing act. Her hair is a different story though. Salman's extreme to his real family (parents and siblings), makes him ideal to play Bharat as he embodies his character's traits, thus making it more convincing. An official adaptation of South Korean drama Ode to my Father (2014), Bharat focuses on the personal and professional choices of its righteous hero, set against the social backdrop of its time. Her chemistry with Salman feels natural and she does a good job at portraying a woman who is self assured without being cocky. 0 out of 0 found this helpful. A little subtlety and crisp editing would have done wonders. He even falls in love with the feisty Kumud (Katrina Kaif), who is brave and honest enough to make the first move on him. While emotional manipulation happens in every film, the fact that it's evident here makes it a tad overbearing. The reverence is blatant. Bharat is well-intentioned, entertaining and doesn't succumb to the trappings of commercial potboilers. The film follows the journey of Bharat (Salman Khan) over the course of several decades as he navigates the ups and downs of life. Sign in to vote. The grey streaks are inconsistent as her character ages and the unruly curls feel unnecessary. You see Bharat jumping risky odd jobs to make ends meet. Shaadi ki umra ho gayi hai meri. The fact that it tries a bit too hard to prove that, is its problem. Interestingly, there's a hidden Sooraj Barjatya in Salman Khan, somewhere. He mounts the meandering story in an unhurried manner on a huge canvas. "I love you. From 1947 to 2010, the narrative spans a period of more than six Decades. Oh, dear.
